

NOTICE CONCERNING COVID:

For the duration of this time of caution due to Covid-19, the Jefferson County Planning and Zoning office will encourage conducting business by postal service, email, physical drop box, and telephone. You are still welcome to drop things off at the office between 8 and 4:30 but we would appreciate your assistance in keeping foot traffic to our office to a minimum. Please call in advance in case there is only one of us in the office and we may be on break or at lunch. Our County Commission has mandated that masks be worn in the courthouse at all times to protect our at-risk population. Please do not come to the courthouse if you think you may be contagious. Thank you.

You can obtain a building permit application by printing it from our website or contacting us and requesting it be sent to you by United States Postal Service, or at our office. Please contact our office by phone or email prior to submitting your application so that we can determine your setbacks, identify potential issues, and determine the best course of action for getting your permit back to you in a timely manner.

We need to know where your building is going to be placed on your property – This can be done by either providing us a map printed from Google Maps or the Jefferson County GIS website. You will need to draw the building in its proposed location. Those maps can either be mailed, emailed or brought into our office; OR we can print and physically mail you a map of your property that you can then use to draw the location of the building. These site plans **MUST** be signed and dated by the property owner.

You might notice on the process sheet there is a step for you to contact the Health Dept and the Road & Bridge Dept if you are doing any residential building so you can determine their procedures. This would include new houses/dwellings, additions to a dwelling, or any accessory structure involving the wastewater system.

Completed building permit applications can be submitted in the following manners:

- Emailing them to djones@jfcountryks.com
- Mailing them to our P.O. Box (below)
- Placing them in an envelope labeled Planning and Zoning and placing them in the drop box at the south entrance to the Court House. (This method results in the Treasurer's office receiving them, and passing them along to us)
- Dropping them at our office after calling ahead.

Please note: If your permit application has a fee associated with it, you are still required to submit by check to either the drop box, or by mailing it to our P.O. Box. We do not recommend sending cash by Postal Service.

Our Mailing Address is:

Jefferson County Planning and Zoning
P.O. Box 628
Oskaloosa, KS 66066

Process for a Building Permit Application

All applicants must supply the following information when applying for a Building Permit

- ❖ **Paid tax receipts printed on the day of application** for all real & personal property owned by the Applicant and/or Property Owner per Resolution 2015-010. These can be obtained on the first floor of the courthouse in the Treasurer's office.
- ❖ **Copy of the Deed** for the property on which you are submitting the Building Permit to show owner of record. This can be obtained on the first floor of the courthouse in the Register of Deed's office.
- ❖ **Affidavit of Authorization:** If the owner of the property is not applying for the permit, a notarized signed copy of the Contractor's affidavit form prior to applying for Building Permit will be required. The form can be obtained in the Planning and Zoning office or online through the Jefferson County website under Planning and Zoning then under Building Permits.
- ❖ **If the owner of the property is a corporation, trust, partnership LLP, or LLC**, submission of Articles of Incorporation or a "like" document that substantiates the applicant's authority to sign on behalf of the property must be submitted at time of application. If not submitted with the application, then the application will be deemed not complete and this office will not accept the application.
- ❖ **Proposed structure's distance from ALL property lines.** Applicant can bring in a site plan or staff will assist in creating a site map with information the applicant provides. **Property owner is responsible for ensuring accuracy of property lines for accurate setback distances.**
- ❖ **Type of Structure:** i.e. – dwelling, shop, barn, commercial
- ❖ **Proposed Use of Structure:** i.e. – storage, livestock shelter, hay storage, RV parking, etc.
- ❖ **Foundation & Frame type of proposed structure**
- ❖ **Estimated cost of proposed structure**
- ❖ **Dimensions of Proposed Structure, along with proposed sq. ft of living area (if applicable)**
- ❖ **Number of Bedrooms/Baths (if applicable)**
- ❖ ***Proposed sewage system type (if applicable),** which the Health Dept. can help to determine.
- ❖ ***Proposed location of new driveway (if applicable):** If proposing a new driveway, the Road & Bridge Dept. will work with the applicant on establishing the location of the proposed entrance. They will provide a measurement of the driveway's location and will use that measurement to create a 911 site address.

***Once the building permit application is completed in the Planning & Zoning Office, a copy of the application and site map will be provided to the applicant to take to the Health Dept. & the Road & Bridge Dept. for a consultation (if applicable). Additional Fees from those Departments may apply. Once the Wastewater and Entrance Applications are approved and are received from the Health Dept. and Road & Bridge Depts., then the Building Permit will be issued. If you have questions about your wastewater system or your entrance or new driveway, please contact the Health Dept. at 785-403-0025 or Road & Bridge Dept. at 785-403-0279.**

Staff has ten working business days, from the day a complete Building Permit application is submitted, to process the permit. Construction must be completed in one year from the date of issuance. The owner and/or agent shall contact the Planning and Zoning office when the construction is complete and a staff site visit will follow.

(initial here) **approved for use by the Jefferson County Health Department.**

_____ **I agree not to occupy or use said structure until the Certificate of Occupancy has been issued**
(initial here) **by the Jefferson County Planning & Zoning Dept.**

Signature of Owner/Agent: _____ **Agreement Date:** _____

Owner/Agent printed name: _____

CERTIFICATE OF OCCUPANCY

This is to certify that these premises, reviewed on the below-referenced date, were found to comply with the Zoning Regulations of Jefferson County. The use of the premises was determined to conform with the use proposed on the Building Permit. Jefferson County assumes no liability for the construction of this structure and has performed no survey. This certificate should be kept with the permanent records for the structure. No change in the type of occupancy or use shall be made in this structure or on these premises that is not consistent with this certificate. You must notify the Jefferson County Planning & Zoning Department in writing of any proposed changes in the use of this structure and/or change in land use. This certificate does not allow occupancy of structures with a wastewater system until said wastewater system has received a final inspection certificate issued by the Jefferson County Health Department. This certificate does not replace the Final Wastewater Inspection Certificate issued by the Jefferson County Health Department.
